

IN THE MICHIGAN COURT OF APPEALS

ORDER

Re: **People v Kewayne Hersel Carter**
Docket No. **266550**
L.C. No. **05-005310-01**

Michael J. Talbot, Judge, acting under MCR 7.211(E)(2), orders:

The motion to accept defendant-appellant's untimely *pro se* supplemental brief is DENIED. The *pro se* supplemental brief and accompanying papers are returned with this order. The motion fails to show good cause for the failure to file the supplemental brief within the 84-day period allowed for *pro se* filings under Administrative Order 2004-6, Standard 4. Furthermore, since the proposed supplemental brief does not raise an additional issue or claim on appeal, it being essentially a reply brief and essentially the same reply brief that was returned by the Court's prior order of June 14, 2006, the brief does not otherwise satisfy the requirements for a *pro se* supplemental brief under Administrative Order 2004-6, Standard 4.
